tims of Murder Plot.

HE HAD FEARED DEATH.

Rebels Capture Another City
and Gain Many Recruits
—Establish Capital.

CANTON, Oct. 25.—Gen. Feng Sen, the newly-appointed Tartar Governor of Canton, was assassinated upon his arrival to assume his duties today. The general, accompanied by his wife and a large escort of soldiers, was coming ashore when a bomb, thrown from the roof of a building, dropped into the party. The explosion that followed killed Feng Sen and thirty soldiers in his escort and caused a fire that burned several houses. According to one account, the general's wife was also killed.

Feng Sen recently left Shanghai for Hong Kong but delayed proceeding to Canton because of the fear that he would be assassinated on his arrival at the latter place. He had been sent to Canton to succeed Gen. Chung, who was assassinated last spring.

Except for the excitement caused by the assassination the life of the city is normal.

CITY OF CHANGCHUO CAPTURED BY REBELS.

SHANGHAI, China, Oct. 25.—The capture by the revolutionists of Changchuo, an important railroad centre in the province of Honan, was announced in despatches which reached this city shortly after noon today. From a strategic point of view the city should prove of great value to the rebels. It is the junction of the Kaifung and Peking-Hankow railroads, and is located about two hundred and fifty miles north of Hankow. Its capture apparently cuts off from Peking all the Imperial troops now gathered around Hankow and Wuhan.

To-day's news from the lower Yangtze Valley was all discouraging to the government. With Kiukiang in undisputed possession of the rebels, the Imperial fleet has retreated on down the river, some of the vessels being reported as far eastward as Wuhu. Conditions are ominous not only in Wuhu, but also in Nanjing. Most of the Manchou officials have left these two cities and are crowding into Shanghai, where every hotel is already filled with refugees.

SHANGHAI TAO-TAI FEARS ATTACK BY REBELS.

The Tao-tai of Shanghai to-day became so alarmed over the possibility of the secession of the native city to the rebels that he removed his household to the foreign settlement. The Tao-tai of Nanking has also put himself under the same protection.

The city of Su-Chow, fifty miles west of Shanghai, is in panic, owing to the revolutionary threats of 5,000 weavers, whose wages have been unpaid for a long time. Su-Chow has 50,000 inhabitants and is one of the wealthiest cities of China.

Revolutionary agents here announced today that the insurgents expect to establish their headquarters at Kiu-Kiang, which will probably be the revolutionary capital.

It is unquestionably a fact that the entire Yangtze region and most of Southern China as well is completely revolutionary in sentiment. All the cities which have been taken over by the rebels in the past few days have been captured almost without resistance. The local government has surrendered quietly and the rebel appointees have taken their places with little stir. A few Manchou officials have been killed, but most of them have joined the rebel cause.

The American cruiser Albany is anchored off Shanghai awaiting the arrival of Rear-Admiral Joseph H. Muddock, who is expected on Nov. 2. The New Orleans is still at Nanking.

Railroad Watchman Has Remarkable Experience

For several years I have been in the employ of the Erie Railroad Company, and in their employ I was taken with kidney trouble. I tried several doctors, but seemed to get no results from their treatment. I tried Dr. Kilmer's Swamp-Root, taking four bottles, which cured me. I am seventy-two years old and am at present at the West Main Street crossing of the Erie Railroad in this village. Very truly yours,

CUMMINS'S AIDES FORGET MORE IN CARNEGIE TRIAL

Auditor Who Handled "Every
Big Check" for Trust Co.
Has Mental Lapse.

The mental lapses which have afflicted the State's witnesses in the trial of William J. Cummins for the larceny of \$100,000 deposited with the Carnegie Trust Company spread to-day so that D. Web-

ster Hall, auditor of the Carnegie Trust Company, and handled, as he testified, "every big check" which went into the concern, affirmed that he could recall no conversation he ever had with the Southern skyrocket promoter relative to any transaction.

The witness's testimony followed closely on the hiatus in the recollections of Vice-President Robert L. Smith, who forgot about all that he had testified before the Grand Jury, at least this much was gleaned from Assistant District-Attorney Clarke bluntly stated that he was forced to express surprise at the variance in Smith's testimony.

FAILURE TO REMEMBER PLEASURES BIG DEFENDANT

The failure of Smith and Hall to recall conversations with Cummins occasioned unmistakable satisfaction to the defendant, for his heavy jaws and small, overhanging eyes beamed with joy. And the District-Attorney failed to prove by the witnesses, as he said in his opening he would do, that Cummins directed the manipulation of the checks by tel-

ling Smith and Hall how he wanted them, in this detail the State's case was received a severe blow. Lawyer Max Steiner, for the defense, asked Smith only one question. He wanted to know if Smith knew that William H. Hotchkiss, State Superintendent of Banks, made a special visit to Nashville to inquire into the standing of various Cummins enterprises. Justice Davis would not allow Smith to answer and Mr. Steiner, with a sly grin, desisted.

Mr. Clarke wanted to know if Smith's conversation with Henry L. Goldsmith just before he took the witness stand had anything to do with his absent-mindedness. This Mr. Smith indignantly denied and Mr. Steiner got Smith to say that the conversation lasted only a "second."

AUDITOR "PASSES THE BUCK" ON CUMMINS'S CHECKS.

Mr. Hall declared he handled every check that entered the bank. He remembered conversations with Cummins regarding the promoter's various concerns, all of which had accounts in the Carnegie, but when asked to detail these

conversations, he said he could not remember any of them. He never got any instructions from Cummins to enter checks, and wrote against the backs of the four checks figuring in the indictment the words, "For account of William J. Cummins," at the direction of Mr. Smith.

CUMMINS'S ENTERPRISE LOANS ARE IDENTIFIED.

Pursuing a point, the District-Attorney referred to an account in the Carnegie Trust Company known as the "Transit Debit Account" and asked Mr. Hall if he could identify the handwriting. Mr. Hall recognized his own. Mr. Clarke read items in the account showing that the Cummins's enterprises, principally the Cummins-Bennett Company, stockyards brokers of Nashville, was the principal beneficiary of this account. It was shown that some reaching \$25,000 were loaned to these companies. It is claimed by the District-Attorney that no entry was made in the accounts of the Cummins enterprises after such loans and that the sole record was kept in the "Transit Debit Account," which is claimed by the prosecution, was a sort of "hot touch" scheme by which Cummins's concerns were temporarily

aided over difficulties. Usually the amount borrowed was replaced in three or four days. It was replenished by signing deeply into the trust fund of the Nineteenth Ward Bank, the District-Attorney contends.

This Transit Debit Account was wiped out by the Banking Department in May, 1908, after it had run three years beginning under the regime of C. C. Dickinson. Lawrence A. Ramage, who was the trust officer of the Carnegie Trust Company, testified that he had been with the Carnegie Trust Company many years. No entry was ever made in the Trust Department of the Carnegie Trust Company as to the \$100,000 trust fund of the Nineteenth Ward Bank. It is this latter fund which the indictment claims Cummins stole. No one in the Trust Department of the Carnegie Trust Company had any information or knowledge about either set of checks, Mr. Ramage swore, until after the institution closed. He had never seen the copies of the letters sent to the Carnegie company by the Nineteenth Ward Bank and returned, acknowledging the receipt of the \$100,000 worth of checks.

Tomorrow, We Shall Dispose of the L. F. Castle Company's SAMPLE HATS for This Season

512 Untrimmed Hats of Velvet and Velour at \$3.50 Duplicates of These Hats Sold for \$6 to \$8.75

During a Few Morning Hours of a Day Early Last Summer We Sold All of Mr. Castle's Spring and Summer Samples. It Was One of Our Greatest Successes. Tomorrow, That Event Will Be Practically Repeated—Except That These Are All the Finest Winter Hats

We consider this sale an honor to the House of Fashion, because Mr. Castle selected us, from all his consumers, to dispose of his samples. Moreover, he granted us the privilege of using his name and trade-mark—as he knew that his high reputation would be upheld to the highest degree.

It seems needless for us to dwell upon the quality and the style reputation of Castle Hats. But there are scores of styles in this disposal—of some there are several alike, as these Hats are not only the samples of Mr. Castle's New York establishment, but those from his branches in Chicago and San Francisco.

Majority of the Hats are Velvet—a few of fine Velour. Black is the prevailing color, although there are some of purple, green and blue; some with black facings.

Styles are generally those that slightly turn up at the side, or the fully turned-up effects, with crowns—round, oval, square, flat or oblong. Some have the plain French finish, others have the new English tailored bindings. Many are in quite large sizes, although there is a pleasing assortment of medium sizes.

512 Hats exactly—and these should not tarry more than a few hours. But it is well to remember that "The early bird catches the worm." In connection with this sale we shall present a special purchase of Ostrich Plumes; including Willow Plumes at \$2.25, \$3.50, \$4.95, \$7.50 and \$8.75, and French Plumes at \$4.50, \$5.50 and \$7.

Besides, for the first time an Arch-supporting Shoe has been made in a fashionable model that effectually conceals its special purpose. This is found in the beautiful Arch-Ease Shoes for women, with high Cuban heels, narrow toes, in patent leather or gun-metal calf with kid tops, at \$8 a pair.
